The Hygienius MediWash is entirely self contained and needs no mains water service or drainage connections.

Pre-programmed hand wash cycle

The MediWash wash / rinse cycle is designed to match the World Health Organization Guidelines "Clean hands protect against infection".

To start the timed wash programme:-

1. Place the hands by the Greensensor and it will flash.
2. Water runs for 4 seconds to enable the wetting of hands.
3. The water stops for 20 seconds to allow for the application of liquid soap and performance of the 9 step hand wash routine.
4. Appropriate hand washing techniques are displayed on the screen.
5. Hot water runs for 10 seconds to enable the soap to be rinsed off the hands.
6. The total wash time is approximately 35 seconds.

MediWash features:-

- Hands free operation under warm running water.
- The water always at the optimum temperature of 40° - 43°C.
- Highly portable - the Hygienius MediWash can be plugged in to any convenient 13 amp socket.
- Nothing to reset or adjust - simple daily hygiene routine.
- Highly efficient use of water - up to 80 wash cycles per filling.
- The unit comes complete with two easy to use TEALtainers which ensures that fresh and waste water are kept separate and hygienically contained.
