

Teal have specialised in designing and developing mobile and portable hot water sinks and basins since 1959 by providing exactly the right facilities where mains fresh water and drainage are non-existent.

This enables customers to have a highly effective and hygienic hot water hand wash under hot running water no matter where they are. Teal's production facility is situated in the heart of England, with international air, road and rail links close at hand.

Currently Teal produces over 12,000 units per annum for every type of application. The unique Teal design and development facility means the introduction of new and innovative products for ever widening user requirements

Teal products are available worldwide through their approved international distributors.

The design and manufacture of portable handwash units for food, vehicle, medical and educational sectors.

# Portable hand wash solutions

*You've got to hand it to Teal*

# High quality hand wash sinks. Just where they are needed.

## Commercial vehicles

The Teal range of automotive units enable you and your workforce to be able to enjoy a hot water hand wash wherever it's needed. Easy to fit and maintain, they are available with 12v or 24v power supply.

These market-leading products are specified by Van Converters, Manufacturers & Operators of waste handling trucks, civil engineering vans, breakdown vehicles and many more applications to support mobile crews.

## Food preparation

Teal hand wash portable sinks are the perfect solution for the food-related and catering industries. The comprehensive range meets the most exacting requirements of any Environmental Health Officer. They can also support food preparation areas that may be some distance away from fixed-plumbing facilities.

Ideal for Street Food suppliers, retailers, farmers' markets and kiosks, outside catering, fast food outlets, ice cream vendors, coffee kiosks, sandwich bars and all other forms of mobile catering.

## Nurseries and pre-school

Hand wash training for children is easy with a Teal unit. They just love the warm gentle wash with these portable sinks – even when they're on the go. Teal mobile sinks can ensure that children can have access to a warm water hand wash – even where they are enjoying playing outside!

Perfect for nurseries, crèches, pre-school, outside play areas, the warm water hand wash units are robust, easy to use and easy to clean.

## Medical

Teal's ground-breaking range of portable sinks enable healthcare professionals and patients to access a high quality, hot water hand wash facilities whenever it's needed!

Through the Teal Task Force service, sinks can be delivered to site to meet demand as a result of unplanned or planned water supply interruptions. Hospitals have been regular users of this service to help to control infection outbreaks and where mains water supply has had to be suspended for maintenance or refurbishment.

Teal can react quickly, so wards can continue to function normally with a hygienic, and safe hot water alternative.

## Outdoor events & camping

If you have an outdoor activity business, Teal can supply the right equipment to provide your guests with warm running water hand washing sinks and sinks for washing-up after food preparation.

The portable wash units are designed to suit whatever outdoor activity you are operating; from permanent glamping tents, pods, shepherd's huts and tent-pitch sites. The units are self-contained, simple to use and do not need any plumbing so they can be placed exactly where there is a need.

They are easy to maintain and ideal if you need additional facilities for a special outdoor event or if you need to support seasonal peaks in bookings as the sink units can be hired as well as purchased from Teal.

## Beauty salons & retail

Teal supply a range of portable handwash basins for salons and mobile professionals providing excellent hand hygiene in a busy salon or when travelling between customers. The basins ensure high standards of hygiene, allowing constant access to hand washing facilities.

Helps to remove risks of cross-contamination between clients and tools even when single-use gloves and sanitisers are used. Handwashing with soap and the running water, from the fully-portable, free of fixed plumbing basins, is a proven method for effective hand hygiene

## Streetfood

Teal supply a range of sinks to street food traders maintaining the highest levels of hygiene and preventing cross infection.

Food safety law, and compliance with it, is vital for all traders and the adoption of a hand wash regime goes a long way to satisfy these regulations and offer your customers a high level of confidence in you and your unique street food products.

These units are an easy-to-use, self-contained portable solution that can provide clean, warm water for you and if you need to, for your customers too.

## Online purchase or hire

The Teal range of products can be viewed online on the Teal website, ordered and delivered direct by them.

The hire service offered is very flexible as you can hire the sink units for as long as you need them. This service is provided for a range of customers who have planned or unplanned water supply outages, for infection control plans or who have special outdoor events.

Larger orders can be delivered by the Teal Task Force hire team. Contact us for more information.
