Motor vehicle water heater

The Compact Welfare water heater for motor vehicles is made from a durable ABS covered steel carcass. It's fully automatic and only powers up when the battery is fully charged and the engine is running - *so there is no drain on the battery.*

The Compact Welfare provided in 12 and 24 volt versions:-
12V: 180W, 15A. **24V:** 250W, 12A.

The Compact Welfare provides a minimum of fifteen 12 second hand washes per filling – enough for a hard day's work – providing hot water with fingertip tap operation.

Hot water hand washing for every welfare vehicle

Hot water hand washing benefits from an ideal water temperature of 38°C – 43°C.

Compact Welfare water heaters for motor vehicles are the perfect solution for those that need a hot water hand wash on the move.

The unit simply connects to the vehicle's electricity supply, ensuring hot water is always to hand.

Waste water drops into the vehicle's existing basin or sink.

It's suitable for every electric, diesel and petrol welfare vehicle

The Compact Welfare is available in both 12 and 24 volt versions.

It's robustly constructed from a durable ABS covered steel carcass and comes complete with a fitting plate that the unit simply slides into.

Hot water hand washing benefits from an ideal water temperature of 38-43°C.
